

Process for adding CTC Survey Questions

- ◆ Possible CTC questions are reviewed every 3 years
- ◆ A List of possible questions is accumulated yearly by the CTC administrator
- ◆ Questions must be statistically validated or be vital to State organizations to be considered
- ◆ Questions are reviewed by a CTC review panel, made up of state agency partners, district superintendents, principals, and district survey administrators.
- ◆ The CTC review panel will be assembled by the CTC administrator and meet in June of every year.
- ◆ The CTC review panel will provide input on each suggested question addition or deletion based on potential effect on district participation, student participation, community concerns or issues, statistical validity, State organization need, and national research
- ◆ The CTC administrator will present the input and recommendations provided by the panel to SRS/AAPS
- ◆ Greenbush and SRS/AAPS will review panel input and make final decisions on each questions addition or deletion.
